The perfect stackable cookware for motorhomes and boats

The Torralta pot set is the perfect choice for camping and boating enthusiasts who value efficient and space-saving cookware. This innovative set has been specifically designed for small cooking areas and, with its optimal surface-to-volume ratio, allows for cooking larger quantities as well. The sophisticated edge design ensures that the pans sit securely and do not slip – perfect for use on uneven terrain.

The outer pots and pans are made from recycled aluminium, making the set particularly robust and lightweight. Folding handles ensure compact and space-saving storage, perfect for the limited storage spaces in motorhomes and on boats. The set is also compatible with all types of stoves, including induction, and is available in three practical size combinations. The detachable handle for the inner pots and pans completes the set functionally and allows for even more versatile use.

- Optimised surface-volume ratio for maximum cooking comfort
- Secure hold thanks to special edge design
