The camping chair Advancer Pro combines maximum comfort, innovative materials and a space-saving design. Based on the popular Advancer model, the Advancer Pro has been specifically designed for camping enthusiasts who value quality and functionality. With a reduced pack depth of just 14 cm, instead of the previous 17 cm, the chair requires less storage space and is even more convenient for on-the-go use.

Particularly noteworthy are the newly designed armrests, which not only conceal the metal sliding rails but also offer finer adjustability. With the 6-stage adjustment function, you can always find the optimal seating position for you – perfect for relaxing hours at the campsite. The DuraDore® 3D Soft Touch Mesh sets new standards in terms of comfort and provides a particularly pleasant feeling on the skin.

Advantages:

- **Compact pack size:** only 14 cm deep – ideal for transport and storage.
- **High-quality armrests:** improved coverage of the metal sliding rails and finer adjustability in six stages.
- **Premium materials:** the DuraDore® 3D Soft Touch Mesh
