This DPSI-TS sine wave inverter family is designed to convert 24 V battery power into pure 230 V/50 Hz alternating current. This ensures the reliable operation of electrical devices up to 3000 W using power from the vehicle battery. Special highlights of this premium product family include the mains priority switching, N-Bus connectivity and compact dimensions. Optionally, you can combine the inverter with the multifunctional display TD283 instead of the remote control included in the package.

- Priority switching: integrated mains priority switching
- Energy efficiency of up to 90%
- Certification: E-certified (EMC vehicle regulations)
