LEITERTEC

Information

Dimensions	34x8x28 cm
Pack size	36.2x29.4x11.8 cm
Net weight	1.9 kg
Gross weight	2.3 kg
Catalogue page	211

More stability, more safety, more comfort

With the Leitertec system, the practical storage bag and the matching felt pads, you can upgrade your telescopic ladder in no time. This set is suitable for all telescopic ladders with round side rails (inner diameter 28 mm or 32 mm) and spring-loaded buttons.

Leitertec System – stability meets flexibility

The Leitertec system consists of two arms, two cotter pins, and two vacuum suction cups made of high-quality aluminium. This material ensures maximum stability even under heavy use.

Assembly is simple: attach the cotter pins, fix the vacuum suction cups, remove the ladder's cover caps and insert the system. Thanks to the spring-loaded buttons, the Leitertec system locks automatically and securely. The powerful vacuum suction cups guarantee a slip-free attachment to smooth, flat surfaces such as glass, car panels or similar – for safe working in any situation.

Bag – organisation and transport made easy

The perfectly fitting bag offers space for the complete Leitertec system, felt pads, cotter pins and accessories. Thanks to

the clever compartments, everything stays well organised and within reach.

With the robust zip and 8 Velcro straps, you can securely attach the bag to your ladder. Even during use, it can remain in place – simply keep the top two Velcro straps fastened and the bag folds back, leaving the bottom rung accessible.

High-quality materials make the bag durable and hard-wearing – perfect for use on construction sites, in trades or on the go.

Felt pads – gentle surface protection

The felt pads perfectly complement the Leitertec system:

- **Plastic backing** for a firm hold
- **Felt surface** to protect delicate surfaces
- Prevent pressure marks, reduce abrasion and increase the contact area of the suction cups
- Attached in seconds – simply let them suction on
- Easily replaceable when worn

Advantages:

- Suitable for telescopic ladders with round side rails (ø 28 mm or 32 mm)
- Simple and quick assembly – even for inexperienced users
- Maximum stability thanks to aluminium components
- Non-slip grip on smooth surfaces
- Neat and protected thanks to the robust bag
- Gentle felt pads for delicate surfaces
