

Item no. 323/592

Manufacturer's no. 9620017284

Solar Panel MT Power Black Line, 130 Wp

BÜTTNER
→DOMETIC

Information

Dimensions	1215x530x35 mm
Pack size	130.5x63.5x17 cm
Net weight	7.6 kg
Gross weight	8.1 kg
Catalogue page	595

The Dometic Büttner Power Black Line solar panels set new standards in the industry. As the name suggests, they combine the advantages of the Dometic Büttner Power Line and Black Line series. With an innovative glass surface and 80 high-performance cells (8 more than the Black Line series), the Dometic Büttner Power Black Line panels achieve a significantly higher solar energy yield, even in diffuse light or partial shading from branches, satellite dishes or an open skylight.

Thanks to a novel wiring system, the new 80-cell high-end panels create optimal conditions for an MPPT solar charge controller. In conjunction with this advanced control technology, the Dometic Büttner Power Black Line solar panels reach the maximum possible performance values – in every climate zone and with minimal space requirements.

For comparison: a Dometic Büttner Power Black Line panel delivers up to 25% more Wp than a 72-cell Black Line panel of the same dimensions. In other words, camping enthusiasts get 25% more power for their devices without having to make space for a larger solar panel.

Specifications

Short circuit current	5.7 A
No-load voltage	27.45 V
Number of panels	1
Nominal power solar panel(s)	130 Wp
Nominal voltage	12 V
Daily output	440 Wh
Type	MT 130
