Nub plate for cupboards and drawers:

Base plate for all stow bars from purvario, the glass & bottle holder FLEXXI 100 and the stemware holder IVY – they are simply clicked on. Dishwasher-safe.

Makes using the stow bars significantly easier and creates a firm connection. No rattling – nothing is damaged. Instead, it reliably holds many camping and household utensils, real glass and bottles, etc.

Extremely flexible when it comes to size: The nub plate can be cut to size (5 mm perforation). Also fits into narrow drawers, transport boxes, camping kitchens, cupboards, etc.

In combination with the spacers ON-TOP, the nub plate can also be used as a basis for the storage box or the storage tower. That way, you can build a robust cabinet.

Tip: It is best to always use an anti-slip mat underneath the nub plate.

If you place several nub plates next to each other, you can connect them to the stow bars to create a large storage surface.
