

Item no. 451/256
Manufacturer's no. 101168

Nozzle – PowerCure Mixer, V-Cut

Information

Pack size	10.5x5.5x5 cm
Net weight	20 g
Gross weight	20 g

Experience maximum efficiency with the PowerCure Mixer application nozzles

Specifically designed for a high flow rate and a reduced waste volume, these state-of-the-art nozzles enable a flow rate of up to 6 ml/s, making them the ideal choice for demanding adhesive applications.

Dynamic application

The PowerCure Mixer nozzles are characterised by their dynamic mixing performance, which ensures maximum results with minimum volume. The innovative V-cut or round cut ensures optimum adaptation to different applications and materials.

Advantages of the technology

- **High flow rate:** up to 6 ml/s for fast and efficient applications.
- **Reduced waste volume:** lower material consumption compared to traditional static mixers.
- **Adaptable:** available with a screw-on adapter that enables individual nozzle designs.

The PowerCure Mixer nozzles are not only efficient, but also user-friendly and offer a wide range of applications thanks to their modular design.
