

Item no. 322/448
Manufacturer's no. 100888

Battery Disconnect

Information

Dimensions	10x8x5.9 cm
Pack size	10x8x5 cm
Net weight	150 g
Gross weight	150 g
Catalogue page	614

Safety and protection at the push of a button! The battery disconnecter reliably interrupts the circuit, which not only minimises the risk of fire hazards but also provides effective theft protection. With a capacity of up to 100 A in continuous operation (short-term 500 A for 5 seconds), it is perfect for use in commercial vehicles and cars. Be it in emergencies or for theft prevention – with a simple action, you can cut off the power supply from the battery. This prevents unauthorised individuals from starting the vehicle or damaging the electronics in critical situations. An essential safety tool for all vehicles!

Specifications

Colour	black, red
Nominal voltage	12 V 24 V
Nominal current	100 A
Suitable for	Mover SR, GO2, SER, TER, TER4, Mammut, Ranger
