

Item no. 301/724

Manufacturer's no. EU-10020030

PTFE Tape for Clesana C1 /X1

Information

Pack size	31.1 x 10.3 x 2.3 cm
Net weight	50 g
Gross weight	90 g
Catalogue page	475

The Clesana PTFE (Teflon) tapes are positioned over the welding wire and prevent the hot polymer from adhering to the welding jaws during the welding process. The non-stick effect of the Teflon starts to degrade after about 2000 welds. To maintain the quality of the welds, the two tapes must be changed. You can easily do that yourself. Swiss Made.

The set consists of 2 PTFE tapes.

Specifications

Colour	brown
Content	2 pieces
Material	PTFE non-stick coating
Suitable for	Clesana C1/X1
