Portable Gas Barbecue 400 SGR

Information

Dimensions	77 x 108 x 54 cm
Pack size	66 x 40 x 17.5 cm
Net weight	10.7 kg
Gross weight	12.1 kg
Catalogue page	502

Cooking and grilling at the same time is finally possible with the portable gas barbecue 400 SGR. The versatile cooking device combines modern design with handy details. Perfect for every holiday!

High-quality stove with three cooking plates and one separate grill surface of approx. 1580 cm². With 80 cm hose and rotating spit with battery motor (batteries are not included in delivery). With this barbecue, you can cook delicious side dishes on the upper cooking plates while chicken or fish are being grilled underneath.

Due to the fact that heat radiation is done from above, marinade and grease do not drip down on any heating source during grilling, which prevents spurting flames. The grease drip tray can simply be put into the dishwasher after you are finished with grilling.

After use, all components can be stored inside the cooker for safe and easy transport.
