

**Item no. 323/564**

Manufacturer's no. 61V110102

## Solar Panel S-Series Vision, 110 Wp

**SOLARA®**  
module, komponenten, systeme

### Information

|              |                |
|--------------|----------------|
| Dimensions   | 1250x557x35 mm |
| Pack size    | 133x58x9 cm    |
| Net weight   | 9.4 kg         |
| Gross weight | 13.2 kg        |

### Maximum performance with glass/glass technology

Embrace renewable energy with the powerful S-Series Vision solar panels. Thanks to innovative glass/glass technology, these panels are exceptionally durable and even fully walkable. Perfectly suited for demanding applications at sea, on land and in extreme climates.

### Highly efficient and robust

- **Maximum power:** additional solar cells (in models 323/564) optimise energy generation – even in low light or challenging conditions.
- **Durable construction:** tempered solar glass on the front and back with monocrystalline PERC cell technology ensures high energy yield and resilience.
- **Extremely robust:** sea water resistant aluminium frame for off-road use and suitable as a sun canopy.
- **Easy to install:** large, waterproof junction box with MC4-compatible connectors and cables for a secure connection.

These high-performance solar panels, manufactured in Germany, reliably deliver energy – be it at sea, in the field or under extreme temperatures. Benefit from the highest quality, durability and a reliable power supply wherever it is needed.

### Specifications

|                              |         |
|------------------------------|---------|
| Short circuit current        | 4.95 A  |
| No-load voltage              | 27.62 V |
| Number of panels             | 1       |
| Nominal power solar panel(s) | 110 Wp  |
| Daily output                 | 440 Wh  |
| Type                         | S450M42 |
