Sikagard®-6250 S Cavity Wax

Information

Pack size	25 x 6.5 x 6.5 cm
Net weight	330 g
Gross weight	440 g

SikaGard®-6250 S is a white, easy to apply, durable spray can wax with excellent rust protection properties. The product is especially suitable for effective protection against corrosion in vehicle cavities and impresses with its outstanding application properties and final performance. After curing, a white, slightly sticky wax layer remains, which protects the cavities against corrosion. SikaGard®-6250 S is manufactured in accordance with the ISO 9001 / 14001 quality assurance system.

- No special equipment required as it comes in a spray can
- Very high resistance to road salt
- Excellent film formation
- Excellent water repellency
- Very good behaviour at low temperatures
- Heat-resistant
- Does not drip during application
- Permanently elastic
