Special Glass Lid RoadTop Model G

Information

Dimensions	6.5x26 cm
Pack size	28x28x6.1 cm
Net weight	287 g
Gross weight	475 g

The special glass lid RoadTop Model G was specifically developed for mobile ovens and ensures even baking results. The large, heat-resistant viewing window allows you to monitor the baking process without having to lift the lid. This keeps the heat inside the oven, allowing the dough to rise optimally.

The glass lid is compatible with all camping ovens with a diameter of 25 cm. Thanks to high-quality workmanship and thoughtful design, the RoadTop impresses with durability and a precise fit.

Whether you are camping, in a van or at home – the RoadTop Model G offers maximum control over the baking process. Replacement is effortless: simply swap the existing lid and benefit from clear visibility and even heat distribution.

Advantages:

- Large, temperature-resistant viewing window made of special glass
- Baking through constant oven temperature
- Suitable for all 25 cm camping ovens
- Robust materials for long service life
- Developed in Germany
