Information

Dimensions	443 x 385 x 758 mm
Pack size	76 x 46.5 x 39.5 cm
Net weight	8.7 kg
Gross weight	8.8 kg
Catalogue page	465

No water, no chemicals, but 100% comfort: Arwinger cassette composting toilet

With the Arwinger cassette composting toilet kit, you can convert your Thetford chemical toilet from the C200 series into a composting toilet. Benefit from all the advantages of a composting toilet without having to forego the comfort and design of your built-in cassette toilet, especially the convenient and practical removal through the service hatch.

To retrofit your Thetford C200, you first need to replace the bowl along with the seat and lid of your chemical toilet with those from the newer model Thetford C220. This is included in the Arwinger cassette composting toilet kit.

The top part of the Thetford C220 bowl is then replaced with the seat part from the Arwinger cassette composting toilet kit. You can carry the conversion out by yourself using the included instructions without any specialist knowledge. The seat part ensures the separation of solids and liquids.

Both are collected by the Arwinger cassette composting toilet kit cassette, which is positioned in the service compartment and replaces the Thetford chemical cassette one-to-one. The solids fall into the open container of the cassette, which is

Specifications

Colour white, black

fitted with a bag, while the liquid is directed through the hose into the tank of the cassette. Both cassette parts can be separated for emptying. The container for solids has a volume of approximately 9 litres, while the liquid container has a volume of approximately 7.7 litres. The fill level of the liquid tank can be read using an optical level indicator.

After converting the bowl, the seat and lid of the chemical toilet are attached to the new seat part, and your Thetford toilet looks as good as before.

- Professional, complete conversion kit
- For easy and quick self-conversion
- Precisely designed for your chemical toilet model
- Seat part produced using deep-drawing for high quality and premium surface
- Separately emptyable solid and liquid containers
- Design and rotation of the chemical toilet as well as appearance and sealing in the bathroom remain intact
- Can be completely reversed if needed

Technical data:

Seat part with separation function

- Material: ABS/PMMA plastic
- Colour: white
- Dimensions (W x D x H): 380 x 410 x 150 mm
- Inner diameter: lengthwise approx. 290 mm, crosswise approx. 250 mm
- Inner diameter solid waste outlet: 160 mm
- Weight: 830 g

Cassette

- Material: polyethylene
- Colour: black
- Dimensions (W x D x H): 250 x 500 x 250 mm
- Weight: 1985 g

Scope of delivery:

Seat part with separation function

- Seat part, ABS/PMMA, PVC
- Gasket, silicone
- Gasket fastening, PETG, polyamide
- Hose connection, brass
- Urine hose, PVC
- Ball valve, PP
- Clamp, steel
- Fastening pins, PETG
- Bowl Thetford C220, plastic
- Lid and seat Thetford C220, plastic
- Adapter ring, POM
- Sliding bearing, PVC
- Conversion instructions

Cassette

- Cassette, PE, PA6, PVC, POM, brass; incl. hose connection

plug, POM; incl. tension strap, polyester

- Closure cap, PVC, PETG
- Latch, PETG
- Stopper, PETG; stopper holder, EPDM
- User manual
