

Item no. 322/290

Manufacturer's no. 9620000286

Spoiler Profile, 33 cm

BÜTTNER
→ DOMETIC

Information

Dimensions	33 cm
Pack size	37.7 x 16.1 x 7.7 cm
Net weight	1.2 kg
Gross weight	1.22 kg
Catalogue page	610

Sturdy, UV-resistant mounting profiles made of high-quality PUR material guarantee optimum stability for the entire service life of your motorhome. The profiles can be screwed to all solar panels with all-round aluminium frame. They ensure optimum ventilation and a secure hold and are glued to vehicle roofs with the adhesive set – without drilling. Available either as corner profiles for one panel (with connecting profile for several panels next to or behind one another) or as spoiler profiles which – attached to the front and rear of the panel – aerodynamically adapt to the vehicle roof.

The spoiler sets always include two longitudinal profiles. A Sikaflex glue kit is required for installation.
