

Item no. 452/119
Manufacturer's no. M9300

Marten Repellent M9300 Self-Sufficient High-Voltage Device

Information

Dimensions	15.5x3.2x8.8 cm
Pack size	17.2x16.4x7.4 cm
Net weight	730 g
Gross weight	770 g
Catalogue page	333

The FOCUSED marten repellent device

The M9300 is a waterproof high-voltage marten repellent. It does not rely on the on-board power supply as a source of energy, but is operated independently with AA batteries (4 x AA 1.5 V, not included in delivery) – without affecting the car battery. Thanks to the integrated low-battery indicator, you will be informed in good time that the batteries are about to run out. The device effectively protects your vehicle as the 6 multi-contact high-voltage brushes can penetrate the martens' fur at any point.

- Waterproof 2.0 (exceeds IP 65)
- Battery operation independent of mains supply with protection function
- Low-battery indicator with LED
- 6 multi-contact high-voltage brushes
- Automatic on/off switch
- Safety bonnet switch optionally available
- Waterproof compact plug for easy replacement
-

E1 mark of the German Federal Motor Transport Authority

Specifications

Colour	red
Material	plastic, metal
Nominal voltage	6 V
Nominal current	0.16 mA

- Self-extinguishing plastic
- Extendable by 4 additional contacts
- Suitable for all motor generations
- Dimensions base unit: 15.5 x 8.8 x 3.2 cm
