Mould Protector Schimmel-Wächter 1 l

Information

Dimensions	11.5 x 14 x 11.5 cm
Pack size	14 x 11.5 x 11.5 cm
Net weight	1 kg
Gross weight	1.2 kg

The mould protector reliably and long-term protects against mould and mildew stains on fabrics, tarpaulins, awnings, tents and many other materials. Its innovative active formula creates active ingredient deposits on the treated surface that have a mild disinfecting effect. This permanently prevents the growth of mould and mildew stains over an extended period, ensuring that no unsightly or unhygienic deposits can form. Even with tents that are packed while still damp, the protection remains effective.

Easy application:

- **For tarpaulins:** apply undiluted evenly over the entire surface with a cloth – including hard-to-reach corners. Allow to dry completely, do not rinse. Good ventilation during application is important. Regular checks and re-treatment as needed are recommended.

- **For fabrics:** spray directly onto the affected area and distribute evenly. Allow to dry without rinsing. Good ventilation during application is also required here.

Please note: after drying, light salt marks may form, which will disappear over time. For long-lasting protection, regular visual inspections and occasional re-treatment are advisable. Perfect for camping, caravans, boats, awnings, tents & more!
