Retaining spoiler set for solar panels up to 550 mm wide

The Solara retaining spoilers are suitable for attaching solar panels with a width of up to 550 mm on motorhomes and caravans. Installation is done by bonding instead of screwing to the vehicle roof.

Thanks to their aerodynamic shape, the retaining spoilers serve both as a mounting system and as wind deflectors. This can help reduce wind and driving noise.

The retaining spoilers are made of anodised aluminium and are available in various colours.

Features:

- For solar panels up to 550 mm wide
- Functional and discreet design
- UV-stable
- Aerodynamic shape for possible reduction of wind noise
- Retaining spoilers made of aluminium
- Incl. screws
