Manufacturer's no. GCW-A-1

Microfibre Cloth Grip Cut Waffle

Information

Dimensions	53x22 cm
Pack size	22 x 16 x 4 cm
Net weight	80 g
Gross weight	140 g
Catalogue page	413

The Grip Cut Waffle microfiber cloth is ideal for cleaning vehicle windows, vehicle mirrors and other glass surfaces. The waffle microfiber ensures a streak-free result. If there is no heavy dirt on the glass, it is sufficient to wipe over it with a slightly damp Grip Cut Waffle and, if necessary, wipe it dry with the second side. Thanks to the Grip Cut, this can be done without having to reach around.

Use the extremely versatile cloth comfortably, e.g. to clean the inside of the windscreen with the back of your hand. No more awkward twisting and bending. And best of all – you will no longer accidentally get your hand on the windscreen and leave new streaks. Additionally, you can use it as a 2-in-1 cloth. Pre-clean damp with one side, fold the cloth over with a flick of your wrist and wipe dry. Done! More convenient, more effective, more efficient, faster!

The design of the Grip Cut is absolutely unique. Due to the diagonal stitching of the slit in the middle, you can reach into the double-layered cloth from both sides. You can use the overhanging side to clean along with your forearm (e.g. for large areas), or you can use it to fold it over so that you can rework with a fresh cloth side without delay.

Specifications
