

Item no. 323/793
Manufacturer's no. 1249

Control Element LCD-Charge Control CI

VOTRONIC
 Elektronik-Systeme GmbH

Information

Dimensions	8x8.5x2.4 cm
Pack size	8.5x8x2.4 cm
Net weight	50 g
Gross weight	50 g
Catalogue page	609

The LCD Charge Control CI is a control and operating unit specifically designed for the VCC series battery chargers. It provides a quick overview of all key parameters such as battery voltage, current charging current and the respective battery charging phases.

- Compatible with all Votronic charging converters of the VCC series
- Matching the form and design of the other Votronic display panels
- Large, clear display
- Bright, white-backlit display
- Displays the active charging source (mains, battery charger or solar)
- Displays the battery charging phases
- Voltage and charging current display
