

Item no. 322/064

Manufacturer's no. LED16G25BASL

LEDs BA15s

Information

Dimensions	51 x 25 mm
Pack size	20 x 9.5 x 2.1 cm
Net weight	9 g
Gross weight	20 g
Catalogue page	557

LEDs are unbeatable when it comes to energy efficiency. The light qualities and application possibilities have increased enormously. They hardly develop any heat, light up immediately and are dimmable and available for almost all lamps. With LED light technology, you can save energy and costs.

- LEDs are switch-resistant, therefore more durable
- No fading of natural materials (no UV/IR radiation)
- Little insect orientation
- No soiling of ceilings/walls through heat development
- No mercury (lower disposal costs)
- 80% colour fastness (CRI = 80)
- Light colour: warm white

The lamps are not vehicle parts according to §22a StVZO. No CAN bus support. Car control units are not compatible.

These lamps are only suitable for interior lighting in motor-homes, caravans and boats.

Specifications

Beam angle	360°
Dimmable	No
Energy efficiency class	G
Colour	warm white
Luminous flux	60 lm
Nominal capacity	0.7 W
Nominal voltage	10 – 30 V
Base	BA15s
Type	16er SMD Globe (2700 K)
