The robust magnetic toilet paper holder ensures that you can securely and conveniently store toilet paper without needing to drilling. Thanks to the strong magnet, the holder can be attached flexibly and repositioned at any time.

The black powder coating gives the holder a sleek appearance while also making it scratch-resistant. To ensure it stays firmly in place during travel, the set includes a suitable metal strip that acts as a counter-pole. The integrated roll stop also prevents the paper from unwinding unintentionally.

With its sturdy construction, attractive design and easy handling, this magnetic holder offers a practical and durable way to securely and space-efficiently attach toilet paper.
