With a length of 31 and a width of 20 cm, the large shovel offers enough space for nearly all pizzas, as well as, of course, other baked goods, such as tarte flambée, baguettes and burger buns. Put some flour on the shovel before using it. This way, the pizza smoothly slides from the shovel onto your barbecue.

The pizza shovel is made of stainless steel, and can be cleaned easily with warm water and a little bit of washing-up liquid. The wooden handle can be folded in, making it possible to store the shovel without taking up too much space.
