Dehumidifier Refill Granules 1 kg

BLUECRAFT

Information

Dimensions	26 x 13 x 4 cm
Pack size	26 x 13 x 4 cm
Net weight	1 kg
Gross weight	1 kg
Catalogue page	406

Dehumidifier granules quickly and effectively eliminate unwanted moisture. The granules are hygroscopic, meaning they absorb moisture from the environment. This product occurs naturally, dissolved in salt brines. The granules work without electricity or batteries, saving costs and preventing mould and rust. Ideal for those with allergies, it regulates humidity to the optimal level of 40 – 60%. Odourless and easy to use thanks to the surrounding fleece bag. The bags fit into many dehumidifier containers ranging from 900 g to 1200 g, such as the MEGA box.

Areas of application:

- Everywhere unwanted moisture forms, e.g. in storage rooms, bathrooms, garages, basements, vehicles (classic cars), motorcycles (under the cover), pantries, washrooms, wardrobes, lockers, tents, kitchens, on and around boats, caravans, motorhomes, awnings, in large rooms, garden huts, weekend houses, etc.
- For all rooms without air circulation
- In rooms heated with propane gas (when burning 1 kg of propane, 1.6 litres of water vapour are released, among other things)
