

Item no. 322/764
Manufacturer's no. 13501450

Hitech Lithium Button Cell, Lithium Coin CR2450

Information

Dimensions	5 x 24.5 mm
Pack size	6.5 x 5.6 x 8 cm
Net weight	10 g
Gross weight	10 g

Discover the powerful high-tech lithium button cell Lithium Coin CR2450 from VARTA. This high-quality battery has been specially developed to reliably power small electronic devices. Ideal for smart home devices, car keys, remote controls, scales and many other applications, VARTA Lithium Coin button cells offer maximum performance for both pulse and continuous discharge applications.

Thanks to their high capacity, these button cells ensure longer runtimes and deliver up to 70% more energy* for long-lasting and reliable performance. Low internal resistance and low self-discharge ensure optimum functionality and efficiency.

VARTA lithium button cells are packaged in childproof packaging and fulfil the highest safety standards. In addition, the extended storage time of up to 10 years guarantees the best quality and service life.

The advantages at a glance:

- **High capacity:** for longer runtimes and efficient use
- **Up to 70% more energy:** long-lasting and reliable performance*
- **Low internal resistance:** for optimum energy efficiency
- **Long shelf life:** guarantees high performance and exten-

Specifications

Colour	silver
Content	1 piece
Nominal voltage	3 V
Type	CR2450

ded shelf life of up to 10 years

- **Childproof:** highest safety standards for safe use

*Disclaimer: up to 70% more energy compared to IEC 60086-2 14.0. Electronic key test MAD. Performance may vary depending on use.
