Manufacturer's no. 8021401

Filter System BeFree Filter AC 500 ml

Information

Dimensions	8.6x27x5.4 cm
Pack size	16.5x11.5x7 cm
Net weight	72 g
Gross weight	153 g
Catalogue page	106

For those who want to save space without compromising on performance, the BeFree AC water filter offers the ideal solution. Whether you are running, cycling or travelling – this filtration system fits effortlessly into small bags, running vests or jackets, ensuring that you have clean drinking water at all times.

The 2-stage filter combines a hollow fibre membrane with activated carbon, reliably removing bacteria, protozoa and unpleasant taste. With a flow rate of up to 2 litres per minute, fresh water is available in no time.

When using water from a clear mountain stream, the activated carbon pad can be simply omitted to enjoy the original taste. Conversely, the activated carbon reduces unwanted flavours from tap water, ensuring that the water tastes good.

A sturdy carrying handle makes it easy to attach to a backpack with a carabiner or rope, while the stable flip-cap closure prevents leaks – even under demanding conditions. The proven BeFree EZ-Clean Membrane™ allows for quick cleaning without additional accessories: simply shake or swirl in water to remove deposits and ensure long filter performance.

Specifications

Colour	blue
Capacity	500 ml
Material	PVC polyvinyl chloride

Technical data:

- Filter technology: hollow fibre filter + activated carbon
- Flow rate: up to 2 l/min
- Service life: dependent on water quality
- Hollow fibre filter: up to 1000 l
- Activated carbon pad: up to 200 l (dependent on water quality)
