Manufacturer's no. EU-10010010

Sealing Toilet Clesana C1 with Round Base

Information

Dimensions	363x515x461 mm
Pack size	60x56x38 cm
Net weight	13.1 kg
Gross weight	15.68 kg
Catalogue page	474

Innovative bag sealing technology

Experience the innovation of mobile sanitation solutions with the Clesana C1, the first waterless toilet with bag sealing. Thanks to the easy installation and retrofitting via a round base, you can rely on the highest comfort and cleanliness with the Clesana C1.

Medical technology

The Clesana C1 uses a thermal compression process in which waste is sealed inside high-barrier film and then disposed of as general waste. The underlying operating principle was originally developed for use in the medical sector as part of a project supported by the Swiss Federal Office for the Environment. As the Clesana C1 operates without rinse water or sanitary additives, the sealed waste does not enter the sewage system.

User-friendly

With a standby consumption of only 0.28 W and an energy consumption of 0.55 Wh per sealing process, the Clesana C1 is also extremely efficient. Included in delivery are a barrier film liner, a pack of super absorbents and software version 0.1.91, so that you can start immediately.

Specifications

Colour	white
Material	ABS acrylonitrile butadiene styrene
Nominal voltage	12 V
Nominal current	22 A
Seat height	47.8 cm
Type	C1

Maximum convenience and hygiene

Experience the freedom and convenience of the Clesana C1 and enjoy mobile sanitation technology at the highest level – without compromising on hygiene.

With round base for free placement in the room.
