The surface-mounted Power socket offers flexible charging options with independent USB ports – depending on the version, either with two USB-C ports or with one USB-A and one USB-C port. Both ports can be used individually or simultaneously. Thanks to support for Power Delivery (PD) and Quick Charge (QC) protocols, the socket achieves a maximum charging power of up to 30 W via USB-C and up to 24 W via USB-A (model-dependent). The device is also protected against short circuits, overload, overvoltage, reverse polarity and overheating.
