Boiler Gas BGF

Information

Dimensions	36x34.7x26.1 cm
Pack size	50x40x30 cm
Net weight	7.38 kg
Gross weight	9.27 kg
Catalogue page	538

The boiler gas BGF ensures a reliable hot water supply in recreational vehicles for showering, washing dishes and washing your hands. It differs from the boiler gas mainly due to the wall flue. The boiler gas BGF does not need to be installed directly on the vehicle wall. It features a special flue attachment to which a flue gas pipe system is connected. The permissible pipe length of up to 150 cm allows for flexible installation of the wall flue and boiler.

Technical data: power consumption at 12 V max. 0.51 A, water capacity 10 l, heating output 1500 W

Scope of delivery: boiler gas BGF, control panel with 3 m control cable, cutting ring, brass support sleeve for copper pipe, condensate hose, condensate drainage set and installation materials.

The water set must be ordered separately!

Consists of drain valve ABO and two elbow connections. Either water set ABO TB (fir tree connection) for connection to flexible water hoses ø 10 mm or water set ABO JG (John Guest) for connection to fixed ø 12 mm pipes.

Specifications

Colour	black
Capacity	10 l
Nominal voltage	12 V
Nominal current	0.21 A
