The solar RGB camping light provides reliable outdoor lighting – whether you are camping, on the terrace or at a barbecue. With 340 lm of light output, it offers three brightness levels (10%, 50%, 100%) in warm white light and an RGB colour-changing mode for atmospheric accents.

Thanks to the integrated solar panel and USB-C port, the lamp can be charged flexibly – without the need for a power outlet. The replaceable Li-ion battery delivers a lighting duration of up to 85 hours.

With an IP44 rating, the lamp is splash-proof and therefore ideal for outdoor use. A practical extra: the integrated power bank function allows charging of smartphones or other devices on the go.
