

Item no. 323/392

Manufacturer's no. 40-151-1021

LFP Battery, 416 Ah

ECOFLOW

Information

Dimensions	50x30x25 cm
Pack size	50x30x26 cm
Net weight	41 kg
Gross weight	45 kg

Discover independence and efficiency with the EcoFlow LFP battery

With the EcoFlow LFP battery, you secure a powerful source of energy. The installation? A piece of cake, thanks to the complete package and Plug&Play integration.

Expandable energy with flexibility

Customise your energy supply to suit your needs: Thanks to the modular system, you can easily increase the energy capacity by stacking the batteries. This gives you flexibility and the option to seamlessly increase your storage capacity to up to 15 kWh. With the EcoFlow LFP batteries, you are ready for the energy supply of tomorrow.

Reliability in any weather

Thanks to the advanced preheating function, the batteries supply energy safely and reliably even in extreme weather and can withstand temperatures as low as -20 °C.

Intelligent battery management system for optimum protection

With an advanced battery management system (BMS), the LFP battery offers first-class protection for your battery and intelligent control of your energy flows. You can rest assured that your battery is always optimally protected and that its

Specifications

Battery technology	LiFePO4 (Lithium)
Capacity	416 Ah
Model	5 kWh
Nominal voltage	12 V
Type	LFP Battery 5 kW

service life is maximised.
