

Item no. 309/665

Manufacturer's no. 9600051085

Exhaust Pipe EAP ø 53 mm

 **DOMETIC**

Information

Dimensions	220 cm x 53 mm
Pack size	220 x 5.3 x 5.3 cm
Net weight	400 g
Gross weight	400 g
Catalogue page	543

Safe and efficient for your combined heater

The exhaust pipe EAP is the ideal solution for the safe extraction of exhaust gases from your combined heater. The inner pipe of this exhaust system reliably guides the exhaust gases to the external smoke extractor. Thanks to the innovative „pipe-in-pipe solution“, the exhaust air pipe is safely located in the combustion air pipe, which draws in fresh air for the combustion process. This ensures that no exhaust fumes can enter the vehicle interior, even in the event of damage or leaks. Manufactured from high-quality, heat-resistant materials, the EAP exhaust air pipe offers maximum safety and durability.
