| Pack size    | 8.5x5x4 cm |
| Net weight   | 39 g       |
| Gross weight | 52 g       |

The reflective magnetic cord Sticky Stricky combines two strong magnets with a sturdy cord – for practical attachments, quick organisation and flexible hanging solutions. Whether you are camping, on a boat, in the workshop or at home: items can be fixed, bundled or kept within easy reach in no time. The reflective version also provides better visibility at dusk and in the dark – ideal for outdoor use.

### Versatile use – not just on metal

Sticky Stricky does not just work on metal surfaces. Thanks to the loop principle, the magnetic cord can be used in many places: simply wrap it around poles, handles, hooks, rods or other suitable points and fasten it. This way, loose items can be quickly “parked” without getting in the way or being lost.

### Practical applications for everyday life and outdoors

- **Camping & vanlife:** fix kitchen tools, lamps, cloths or accessories in the right place
- **Festivals & sports:** keep equipment together, secure small items, improve bag organisation
- **Workshops & garages:** bundle cables, hoses or tools and store them neatly
- **Garden & household:** hang gloves, tools or accessories temporarily and keep them within reach

### Specifications

|          |       |
|----------|-------|
| Colour   | black |
| Material | nylon |

- **Boats & outdoor:** secure lightweight equipment and find it more easily thanks to the reflective cord

**Reusable like a cable tie – but more flexible**

The magnetic cord is also suitable as a reusable cable tie: bundle, release, readjust – without single-use material. This saves time, reduces clutter and makes handling especially straightforward.
