Solar Charge Controller SunSaverDuo™/RM-1

SOLARA®
module, komponenten, systeme

Information

Dimensions	28.5 x 22.5 x 5 cm
Pack size	33.7 x 23 x 5.4 cm
Net weight	1 kg
Gross weight	1.3 kg

The **SunSaverDuo™** by Morningstar is an advanced charge controller for two batteries with pulse width modulation for motorhomes, caravans, boats and cottages. This product will charge two separate and isolated batteries at the same time, such as a „house battery“ and a „motor battery“, based on the user-selected priorities. Robust design with metal housing, encapsulated circuit board and 5 years manufacturer's warranty also characterize these charge controllers. Regulated PWM characteristic and temperature controlled charging make this regulator the charging centre of the solar system.

The **SunSaverDuo/RM-1** is additionally equipped with a remote indicator with backlight that can be mounted in or to a wall. It indicates digital as well as pictographic status information regarding the solar system. The product consists of one charge controller SSD-25 and one remote indicator RM-1.

Technical data: daily output: 1700 Wh; controller: 17.0 x 5.6 x 4.1 cm, 340 g; remote display: 9.7 x 9.7 x 3.1 cm, 135 g (fits into a round hole with a diameter of 7.6 cm).

Specifications

Nominal capacity	425 W
Nominal voltage	12 V
Nominal current	25 A
Type	RM-1
