Protective Cover Sleeve

Sticky Stricky

Information

Dimensions	1 x 4 cm
Pack size	8.5 x 5.6 x 2.1 cm
Net weight	2 g
Gross weight	5 g

Additional paint protection and reduced magnetic force

The **protective cover Sleeve for Sticky Stricky** is a soft silicone cover specifically designed for use with Sticky Stricky magnets. The flexible material **reduces the magnetic force by about 50%**, making the magnets significantly easier to separate. This simplifies handling and provides greater comfort during use.

At the same time, the sleeve acts as an **extra-soft protection for vehicle paintwork**. When Sticky Stricky is attached to the vehicle, the silicone cover forms an additional protective layer between the magnet and the surface. This further minimises the risk of scratches or pressure marks.

Cleaning is also particularly easy: if Sticky Stricky should fall or get dirty, the **Sleeve can be easily removed and washed**. It can then be used again immediately.

Please note: Sticky Strickys are already rubberised and can be used on vehicle paintwork without the Sleeve. It simply provides an additional protective layer.

Product details:

- Protective cover made of soft silicone for Sticky Stricky
- Reduces magnetic force by approx. 50%

Specifications

Colour	black
Content	2 pieces
