Experience light in perfection with the Quadrilux table lamp, a rechargeable outdoor lamp with a lithium battery (3.6 Ah, 3.7 V) that combines modern design with professional functionality. This elegant table lamp emits pleasant light and is perfect for cosy evenings outdoors. With its warm white LED lighting, it creates a comfortable atmosphere, while the elegant metal shade gently distributes the light.

The Quadrilux table lamp is easy to operate thanks to an ON/OFF touch function. With the touch dimming function, you can steplessly adjust the light intensity. The lamp is equipped with a durable lithium-ion battery that can be easily recharged at any time using the included USB-C cable. With a luminous output of 200 lm, it adapts to any environment and offers a choice between cool, warm or pure white light.

Thanks to its IP54 protection class, this lamp is both dust-tight and splash-proof, making it ideal for outdoor use. The lighting duration varies between 7 and 48 hours, allowing you to enjoy the atmosphere without interruption.

The Quadrilux table lamp is the perfect combination of style, convenience and durability for your outdoor spaces.
