Sine Wave Inverter SinePower DPSI-ITS, 24 V

DOMETIC

Information

Dimensions	401 x 87 x 284 mm
Pack size	53.5 x 39 x 17 cm
Net weight	5.2 kg
Gross weight	5.6 kg
Catalogue page	587

This sine wave inverter is designed to convert 12 V or 24 V battery power into pure 230 V/50 Hz alternating current. This ensures the reliable operation of electrical devices up to 1800 W using power from the vehicle battery. Special highlights of this premium product include the intelligent mains priority switching (voltage synchronisation) and a smart standby mode. Combine the inverter with an elegant control panel for convenient operation and a clear overview or with the TD283 multifunctional display. It also works with the Dometic Power App – provided there is at least one Bluetooth®-enabled device on the network (TEMPRA battery or TD283 display in combination with a Dometic solar controller).

- Priority switching: integrated mains priority switching with voltage synchronisation
- Certification mark: E-certified (EMC vehicle regulations)

Specifications

Output voltage	230 V
Continuous output	1800 W
IP protection class	IP21
Nominal voltage	24 V
Nominal current	1.3 A
Quiescent current	0.1 A
Peak power	3600 W
Type	DPSI 1824ITS
