Induction Hotplate

TRISTAR

Information

Dimensions	26x6.1x31.5 cm
Pack size	37.5x33x10 cm
Net weight	1.76 kg
Gross weight	2.33 kg
Catalogue page	660

The Tristar IK-6161 induction hotplate combines power, safety and design in a compact device that fits perfectly into any kitchen. With a strong output of 2000 W, it ensures quick heating and allows for precise temperature control through 10 power levels, providing you with maximum flexibility while cooking.

For your safety, the following features are included:

- Automatic pot detection, which activates only with suitable cookware
- Automatic shut-off, which turns the device off when not in use
- Overheating protection for lasting safety
- Lock function to prevent unwanted settings
- Non-slip feet that guarantee a secure stand

It is intuitive to operate via a modern LCD display and touch panel that shows temperature, power and the timer. The timer can be set for up to 180 minutes, which is particularly beneficial for slow cooking. The stylish black safety glass gives the hotplate an elegant finish and the cooking surface with a diameter of 19 cm is suitable for various pots and pans. The Tristar IK-6161 thus offers you a modern and safe
